PROFESSIONAL SUMMARY

I'm a Full Stack Developer who loves to code and create amazing things. I have been coding for 4 years and have built over 15 apps/sites as a Full Stack Developer. I have a knack for creating stunning and user-friendly blog sites, social media sites, e-commerce sites, and anything else you can imagine. I am using Python(Flask, FastAPI) for backend, TypeScript/JavaScript(React,React Native) for frontend. I love these languages and frameworks because they are fast, powerful, and fun to work with.

SKILLS

- Python
- API development
- React
- SQLite
- Tailwind

- Flask
- JavaScript
- React Native
- HTML
- Bootstrap

- FastAPI
- TypeScript
- MongoDB
- CSS
